DECO-COAT
DC-2501R EPOXY RESIN

DESCRIPTION:
Deco-Coat 2501 Resin is a two component high gloss epoxy resin that forms a hard enamel like finish. This versatile coating is a liquid resin that is safe and easy to use. It does not contain any solvents or offensive odors. DC-2501R is also available in low viscosity (DC-2501R LV).

Deco-Coat 2501 Resin forms a tough, durable coating that is impervious to moisture, solvents, and cosmetics. These unique coatings are formulated for maximum durability and aesthetic appeal. They can be air dried at room temperature or baked to form a “bubble free” finish without any blushing or surface imperfections.

Deco-Coat 2501 Resins exhibit excellent adhesion to a variety of substrates including plated metals, glass, plastics, wood, concrete, fabric, etc...

DC-2501 Resins are available in clear and an unlimited assortment of opaque and transparent colors. We also offer pearlescence, metallic, and glitter finishes.

APPLICATIONS:
- Epoxy finish for costume and fashion jewelry
- Rigid bubble coatings on decals, labels, emblems, and lapel pins
- Color fill lapel pins, emblems, key tags, plaques, and insignias
- Coat wooden floors and tables
- Decoupage coating on veneer, cypress or other woods

PROPERTIES:
Mix ratio, by weight 2:1
DC-2501 standard viscosity, 25°C, cps
- Resin 9,500
- Mixed (DC-890C) 2,600
DC-2501 low viscosity, 25°C, cps
- Resin 6,000
- Mixed (DC-890C) 1,000
Specific gravity, 25°C
- DC-2501R & DC-2501R LV 1.15
- DC-890C Hardener .95
Hardness, Shore D, 85
## DECO-COAT CURING AGENTS:

<table>

INSTRUCTIONS FOR USE:
1. By weight, mix 2 parts clear or pigmented DECO-COAT EPOXY RESIN to 1 part DECO-COAT CURING AGENT.
2. Mix thoroughly and uniformly. Be careful not to whip air into epoxy when mixing. Scrape the bottom and sides of the mixing container.
3. DECO-COAT 997 Activator Drops can be added when using select curing agents. This will thicken the system for curved or domed surfaces.
4. Dispense epoxy pneumatically or with squeeze bottles. See Deco-Coat's "Dispensing & Supplies Data Bulletin."
5. Let epoxy coating air dry at room temperature or accelerate with mild heat, 80°-110°F.

AVAILABILITY:
Deco-Coat 2501 Epoxy Resins and Curing Agents are available in 1 gallon, 2 gallon, 5 gallon pails, and 55 gallon drums.
